

Maghreb-American Health Foundation, Inc.

From the President

May 1, 2016

Dear friends and partners in the noble cause of the Maghreb-American Health Foundation, Inc.

As we celebrate the end of another successful mission undertaken by MAHF's outstanding team and their partners from four different U.S hospitals, and on behalf of the Board of Directors, I would like to thank you all for allowing us to lead such a great team of caring individuals. During this and previous missions, I was able to discern the passion that each one of you has for the disadvantaged, sick kids with unmet medical needs, and take it to the next level where action and compassion stimulate the energy of total commitment to continuous improvement.

As we look back at this mission, it is important for all of us to appreciate the comprehensive nature and scope of the work that was accomplished in providing wide ranging services from consultation, screening, treatment plan, to surgery and surgical techniques used to alleviate the suffering of the children with Spina Bifida. This is unique and we should all take great pride in being a part of it.

In conclusion, Mission Medea 2016 was a resounding success. Without a doubt, the credit goes to the team of doctors on the ground who worked tirelessly during long days. Hand in hand, Algerian and American doctors worked as one team in providing unconditional care and concern for each and every patient who came from different parts of Algeria to the Hospital of Medea, and remained upbeat with positive attitude till the last minute of their journey.

Appreciation must also be extended to the Minister of Health of Algeria, Mr. Abdelmalek Boudiaf, for authorizing the mission and deploying the necessary measures for its success; the director of Health in Medea (DSP); the good hearted team of doctors of the Hospital of Medea and its Director, and the Wali of Medea

who were instrumental in the smooth running of this mission; and last but not least the wonderful people of Algeria that overwhelmed us with their hospitality, generosity, and prayers. Indeed, they are what make that country a great and unique place. So thank you for welcoming us in your community.

The board of directors extends a very sincere thank you to each and every person who believed in us and contributed with money, support and warm wishes towards making the Mission Medea 2016 a successful, spectacular and memorable one.

Thank you for showing the world an exceptional example of giving back and embracing life and love in the noblest way. I look forward with gratitude and excitement to the next mission with you all on board.

Rahmouna Rouni
President of the Maghreb-American Health Foundation, Inc
